Community Media Center Offers Coverage of 2008 Memorial Day Events

Westminster, Maryland (May 27, 2008) – The Community Media Center will air Westminster’s 141st Memorial Day Parade and Exercises at the Westminster Cemetery beginning today and running throughout the month of June. This event is captured annually by volunteers and staff of the Community Media Center for broadcast on Carroll County’s public access channels.

Viewers have several options this year in the way that they tune in to see family and friends. In addition to being broadcast on cable television’s Channel 19 at preset times, the program will be available “on demand” through streaming video at www.cmcmd.tv under “programming/video library” by the end of the week. Program dates and times are available on the website along with a variety of still photos.

“This is a tradition that we look forward to covering every year,” said Marion Ware, Executive Director of the Community Media Center. “Our residents make public access special and unique and we want to capture them and what’s important to them. Children and their parents lining Main Street with flags in their hands epitomize the spirit of Carroll County.”

The Community Media Center (CMC) is a public, education and government broadcast, or PEG, facility that provides programming by and for Carroll County residents. Local interest in television production is welcome as the organization provides training and equipment for volunteers who wish to create their own programming.

Visit our website at www.cmcmd.tv or contact the center at (410) 386-4415 for additional information. The Community Media Center is committed to supporting “television that matters” in Carroll County.
